

**APPENDIX B**  
**SITE INVESTIGATION PHOTOS**

---

## **SITE 1—CENTRAL OAHU REGIONAL PARK**

Entryway into Central Oahu Regional Park. A possible location for an MBR facility is the plot of land behind the CRM park sign. On the right as you enter the park is a pesticide treatment facility, hidden behind the trees in this picture.

Southeast tip of Central Oahu Regional Park. This portion of the park is another potential location for an MBR facility. It is bordered by Kamehameha Highway, residential homes, and the park entrance.

## **SITE 2—PUBLIC BATHS PUMP STATION AND ALA WAI GOLF COURSE**

South end of Paki Park on Leahi Avenue. On the south end is an open grassy field that is available for placement of an MBR unit.

Paki Park. The open grassy area is bordered by residential homes to the south and east. The Honolulu Zoo, behind the trees in this picture, is west of the park.

North end of Paki Park. A comfort station occupies the north end of the park. A playground area is behind the comfort station.

Public Baths Wastewater Pump Station. The Public Baths Wastewater Pump Station is on Kalakaua Avenue. The Waikiki Aquarium, south of the pump station, is shown behind the pump station in this photograph.

### **SITE 3—SAND ISLAND WWTP**

Aerial view of Sand Island. This satellite image of Sand Island (from Google Maps) shows the Sand Island WWTP in the central portion of the island.

#### **SITE 4—MOANA PARK WASTEWATER PUMP STATION**

Moana Park Wastewater Pump Station. This pump station is on the edge of the Ala Moana Regional Park and on the corner of Ala Moana Boulevard and Ala Moana Park Drive.

Park side of Moana Park Wastewater Pump Station. The Ala Moana Regional Park extends south and west of the pump station. A temporary construction storage area currently occupies the region immediately west of the pump station but may be available in the future for the construction of an MBR facility.

## **SITE 5—KAILUA BEACH PARK**

Kailua Heights Wastewater Pump Station. The Kailua Heights Wastewater Pump Station is located near MPCC.

Kailua Beach Park. This corner section of Kailua Beach Park shown here is at the intersection of Kawaihoa Road (on the right) and Alala Road (on the left). This section of the park is a potential site for an MBR facility that would provide recycled water to MPCC.

End of Alala Road. The guardrail marks the boundary between Alala Road and the golf course. The recycled water distribution piping can be placed on Alala Road.

## **SITE 6—KAMEHAMEHA HIGHWAY WASTEWATER PUMP STATION**

Kamehameha Highway Wastewater Pump Station. This pump station is a potential wastewater source for an MBR facility that could provide recycled water to Keehi Lagoon Park and the HIA. Nimitz Highway and the H1 Viaduct, behind the pump station building in this photograph, are north of the pump station.

Department of Parks and Recreation Base Yard. This base yard occupies the area south of the Kamehameha Highway Pump Station.

Tennis courts near the Kamehameha Highway Pump Station. A construction storage area and tennis courts are east of the Kamehameha Highway Pump Station. An MBR facility can be constructed on the northeast corner of Keehi Lagoon Park near the tennis courts.

Keehi Lagoon Park. An MBR facility can alternately be constructed on the park and draw wastewater from a 42-in. sewer line that runs along the northwest edge of the park or the Kamehameha Highway Pump Station.

## SITE 7—FORT DeRUSSY WASTEWATER PUMP STATION

Fort DeRussy Pump Station. The Fort DeRussy Pump Station on Kalakaua Avenue is shown here behind the coconut trees. Next to the pump station is a gas station.

Fort DeRussy Military Reservation. The Fort DeRussy Pump Station is on the edge of the military reservation. An MBR facility can be constructed on the military property near the pump station.

## **SITE 8—UNIVERSITY OF HAWAII AT MANOA**

Kanewai Park. Kanewai Park is located on Dole Street and is adjacent to the University of Hawaii Lower Campus. A small recreation building, a comfort station, basketball courts, a playground, a picnic area, a pool, and tennis courts occupy the upper grounds of the park. Softball and baseball fields are on the park's lower grounds. The Noelani Elementary School borders the lower grounds of the park.

West side of Kanewai Park. A stream, under the trees, separates the park from the university campus. The circular buildings shown in this photograph are the university's dormitories.
