Laura McLellan

Laura McLellan is an environmental scientist in the Division of Water Quality at the State Water Board and the lead staff working to update California's Recycled Water Policy. Prior to her current position, Laura worked on developing the statewide mercury TMDL for reservoirs at the Central Valley Regional Water Board and in the basin planning unit at the San Francisco Bay Regional Water Board. She holds a B.A. in Environmental Studies from Brown University.

Graham Calciano

Graham Calciano has over 20 years of experience and specializes in engineering studies, project management, and design of water, recycled water and wastewater projects for municipal dischargers. Graham works for Brown and Caldwell and serves as Sacramento Regional County Sanitation District's (Regional San) Project Manager for the \$300 million Tertiary Treatment Facility Project. His wastewater engineering experience includes activated sludge with nitrification, activated sludge with nitrification/denitrification, filtration, sedimentation, UV disinfection, chemical handling systems, biosolids dewatering, pond treatment, pumping stations and collection systems.

Jeanne Chilcott

Jeanne Chilcott has over 30-years experience with the Central Valley Water Board ranging from watershed risk assessments to the selenium control program, and she is currently the Program Manager for Basin Planning, TMDLs, the Delta and CV-SALTS.
