- Declares ocean wastewater discharge a “waste and unreasonable use”

- Prohibits ocean dischargers after 2036, except as a “backup discharge”.
- Last Action: 9/03/15 Amended in Assembly -> 2 year bill
- Concerns include: timeline, cost, uncertain regulatory requirements, equity among WWTP dischargers, seasonal RW demand, and public acceptance of RW.

AB 1463: Onsite Treated Water (Gatto)

- Establish WQ standards, distribution, monitoring, & reporting requirements for onsite treated water systems (OSTW)
- OSTW is defined to mean water including graywater, rainwater, and other water captured or recycled onsite, that has been sourced, treated, and used onsite in a building in a manner that is protective of public health, safety and the environment. Does not include blackwater.
- Last Action: 9/4/15 – Amend and re-refer to committee
