  - WateReuse Committee status reports
► MBR vs. Extended Aeration Pilot Study for Small Treatment Systems, WRF Project
  Speaker: Colin Moy, Environmental, Health & Safety Spec. EBMUD
► Pardee Water & Wastewater Operations, Presentation and Tour (after meeting)
  Speaker: John Johnson, Assistant Superintendent Pardee Section, EBMUD
► Newsletter updates
  Sherri Miller, Dudek
► Future Meetings and Chapter Activities
► Panel Discussions
  - Local issues and projects
  - State and National Policy

Please RSVP no later than February 18th
email subject line “Central Valley Sierra Foothill WateReuse Meeting” to rcrites@brwncahd.com or call (530) 204-5204
Special Guests:

Colin Moy

Colin Moy is the Environmental, Health & Safety Specialist for East Bay Municipal Utility District (EBMUD), Regulatory Compliance Office. He has over 30 years experience in environmental management systems, permitting, and compliance for various manufacturing and utility industries in the private and government sectors. For EBMUD’s Environmental Compliance Section, he is responsible for all environmental compliance requirements for water, wastewater, hazardous materials, hazardous waste, air emissions, stormwater, and watershed and streambed routine maintenance for Pardee Section, Mokelumne Watershed & Recreation Division, and Aqueduct Section. He has been an active member of WaterReuse, in addition to being a board member for the Central Valley/Sierra Foothills Chapter, Central Valley Clean Water Association, and the Castro Valley Sanitary District’s Community Advisory Committee. He has a Masters of Science degree in chemical oceanography from Old Dominion University and a Bachelors of Science degree in chemistry from the University of Delaware.

John C. Johnson

John Johnson is the Assistant Superintendent of Pardee Section of EBMUD’s Water Supply Division, responsible for water and wastewater operations and maintenance. With 29 years’ of public service working in the water and wastewater industry, he was responsible for obtaining the first permitted Master Water Recycler with numerous cutting edge recycled water applications, including dual-plumbed residential subdivisions and 100% recycled water flushing restrooms in the new high school. Mr. Johnson was the Public Works Director for the Town of Windsor, Sonoma County, for 15 years and led the design and construction of the award-winning water recycling distribution system. This was the most enforced and rigorous permit issued by the North Coast Regional Water Quality Control Board. For EBMUD for the past seven years, he supervises all water and wastewater operations and maintenance, including four permitted POTW’s, two of which utilize spray land disposal for 100% of their effluent. Mr. Johnson holds a Grade V, T3, and D3 certifications. He hold Associate of Arts degrees in water and wastewater technology from Palomar College and a State of California Lifetime Limited Teaching Credential in Water and Wastewater Vocational Education.
DIRECTIONS FROM AMADOR COUNTY LOCATIONS  
(Jackson, Sutter Creek, Pine Grove, Pioneer, etc.)

Stoney Creek Road: This road is a nice road, but it is curvy – it takes about 20-25 minutes from Jackson to reach Pardee. To go this direction, from Hwy. 49, turn on Hoffman Street (towards Jackson Jr. High & Argonaut High School). Take Hoffman all the way to the top, past the Argonaut track. It turns into Stoney Creek at the top of Hoffman Street. Stay on Stoney Creek Road all the way to Pardee. You will PASS the Pardee Recreation Area entrance. Not far past the recreation area, turn left onto Sandretto Road (the first road you come to after the rec. area). Follow Sandretto Road over Pardee Dam and over the Pardee spillway. Just as you drive over the spillway, you will see a gated driveway to your left. Come up that driveway (reduce your speed) and follow the road, staying to your left, around the Crew’s Quarters building, up the hill, to McLean Hall. McLean Hall is at the top of the hill just past the swimming pool and gazebo. There’s a parking lot just past McLean Hall for parking.

Highway 88: This direction takes about 20 minutes to get to Pardee from the stop light at Sutter Hill. Depending on where you live, either come to the stop light at Sutter Hill and follow to Highway 88, or drive past the Albertsons shopping center – from both ways you will be heading west on Highway 88. Turn left onto Buena Vista Road (across from Ione exit). You will pass the dump and come to a four-way stop in Buena Vista. Keep going straight, following the road through town, over the creek, and past the vineyard. After you pass the vineyard and reach the top of the incline, you will see an old stone well in the middle of the road – turn left. Follow the road up the hill. At the very top of the hill, take your first right onto Sandretto Road. If you go to the recreation area, you missed Sandretto Road. Follow Sandretto Road across Pardee Dam and the Pardee spillway. Just as you drive over the spillway, you will see a gated driveway to your left. Come up that driveway (reduce your speed) and follow the road, staying to your left, around the Crew’s Quarters building, up the hill, to McLean Hall. McLean Hall is at the top of the hill just past the swimming pool and gazebo. There’s a parking lot just past McLean Hall for parking.

If you get lost, please call us at 209-772-8200 or 209-772-8227.
