Meeting Agenda

**Date:** Thursday, November 7, 2013  
**Time:** 9:00 – 11 A.M.  
**Place:** Sacramento Regional County Sanitation District / Sacramento Area Sewer District  
Conf. Room SASD South Rm. 1212 Sunset Maple  
10060 Goethe Road, Sacramento, CA

**Meeting Sponsors:**

**Agenda:**

► 9 A.M. Call to Order

► Self Introductions

► Standing Items  
  - Chapter mission and goals  
  - WRA committee reports

► Special Panel Guests  
  Robert Beggs, Gary Carlton, Sevim Onsoy, Christy Kennedy, Jeanne Chilcott  
  Salt and Nutrient Management Plan Requirements and the State Recycled Water Policy

► Future Meetings and Chapter Activities  
  Volunteer speakers, hosts, and tours

► Panel Discussions  
  - Local issues and Projects  
  - State Policy and Legislation  
  - Operational Issues  
  - Recycled Water Treatment and Applications

**Please RSVP no later than November 5**  
email subject line “Central Valley Sierra Foothill WateReuse Meeting” to rcrites@brwncaald.com  
or call (530) 204-5204

---

**Executive Committee**

Onder Caliskaner, President  
Kennedy Jenks, Rancho Cordova  
(916) 858-2738  
OnderCaliskaner@KennedyJenks.com

José Ramirez, Vice President  
Sacramento Regional County Sanitation District, Sacramento  
(916) 876-6059, ramirezj@sacsewer.com

Colin Moy, Secretary/Treasurer  
East Bay Municipal Utility District, Oakland  
(510) 287-0247, cmoy@ebmud.com

Vickie Caulfield, Secretary/Treasurer  
El Dorado Irrigation District, Placerville  
(530) 642-4058, vcaulfield@eid.org

Ron Crites, Chapter Trustee  
Brown and Caldwell, Davis  
(530) 204-5204, RCRites@BrwnCald.com

Nicola Fontaine, Past President  
Carollo Engineers, Sacramento  
(916) 565-4888, nfontaine@carollo.com

---

**Teleconference Information**

Call In: (213) 289-0155  
Conf. ID #: 8636542

---

**For Speakers & Sponsorships Contact:**  
Onder Caliskaner, President  
(916) 858-2738  
OnderCaliskaner@KennedyJenks.com

**For Newsletter Articles Contact:**  
Sherri Miller, Dudek, Sacramento  
(916) 443-8335, smiller@dudek.com

---

**Next Chapter Meeting**  
January 16, SRCSD/SASD
Special Guests:

**Rob Beggs, Brown and Caldwell**
Rob Beggs is a Managing Engineer in the Davis office of Brown and Caldwell. Dr. Beggs has more than 30 years of experience in environmental engineering, soil-water systems, and water resource management. Dr. Beggs has led numerous groundwater related studies in the Sacramento Valley, mostly in Yolo County. He was also project manager for the Lower Santa Margarita River Basin SNMP completed in 2012 and is currently completing the SNMP supplement for the City of Fallbrook and the SNMP for Camp Pendleton Marine Corps Base northern basins in Southern California. He will talk about the use of SNMPs as a tool in groundwater basin management.

**Gary Carlton, P.E., Kennedy/Jenks Consultants**
Gary Carlton is a civil engineer experienced in surface water and groundwater hydrologic studies, assessments of wastewater discharges to determine impacts on beneficial uses, and innovative wastewater treatment and disposal systems. With over 40 years experience managing and participating in the development of municipal and industrial wastewater conveyance and treatment systems, he has represented industry, government, and served as an expert witness to legal teams involving toxic tort and insurance recovery litigation. Mr. Carlton was the Executive Officer for the Central Valley Regional Water Quality Control Board and was appointed by the governor to serve on the State Water Resources Control Board as the Registered Civil Engineer Member. He currently provides regulatory liaison and support in the public/private sector at the Policy level with the SWRCB and RWQCB.

**Sevim Onsoy, Ph.D, Kennedy/Jenks Consultants**
Sevim Onsoy is a hydrologist and water resources specialist with over 15 years of research and environmental consulting experience. Her area of expertise is subsurface flow and transport modeling. She has been with Kennedy/Jenks Consultants about six years and involved in a variety of water resources management and planning projects. Prior to consulting, her research at UC Davis focused on subsurface modeling of nitrate to evaluate groundwater quality impact from agricultural practices. Today, Dr. Onsoy’s presentation looks at a comprehensive GIS database being developed as part of the CV-SALTS efforts that will lead to the Region 5 Basin Plan amendments related to salt and nutrients.
Christy Kennedy, RMC Environmental

Christy Kennedy, PE, PG, CHG has been leading Salt and Nutrient Planning projects for RMC since the adoption of the Recycled Water Policy in 2009. Christy has successfully completed two SNMPs in Northern California (Sonoma Valley and Santa Rosa groundwater basins), and lead the creation of a Bay Area wide template for SNMP development that incorporates “off-ramps” - working collaboratively with the Region 2 Regional Water Board. Additionally, Christy helped develop the Salt and Nutrient Analysis Platform (SNAP), the main GIS tool being utilized to characterize basins and complete the policy-required loading analyses.

Jeanne Chilcott, Central Valley Regional Water Quality Control Board

Jeanne Chilcott is a Senior Environmental Scientist at the Central Valley Regional Water Quality Control Board. She has over 30-years experience in water quality investigation, regulation and Basin Planning activities within the Central Valley. A majority of her work has focused on agricultural issues including investigating impacts of agricultural drainage on Delta waterways, early development of the rice herbicide and selenium control programs, evaluating sedimentation in the San Joaquin River Basin, characterizing Tulare Lake Bed evaporation basins, and participating on statewide advisory committees. After serving as the Central Valley Water Board Program Manager for the Surface Water Ambient Monitoring Program, Jeanne has spent the last three years as the lead Water Board staff participating in the stakeholder lead CV-SALTS initiative to develop a Central Valley-wide Salt and Nitrate Management Plan.
We’ve moved!

Effective December 7, 2009, the Sacramento Area Sewer District and the Sacramento Regional County Sanitation District will be located at a new, LEED-certified, “green” building at:

10060 Goethe Road
Sacramento, CA 95827

Staff from the Mather, Ecology and South Warehouse buildings will now be at this new location. * Please update your contact information.

You can continue to reach us at:
Phone: 916-876-6000
Fax: 916-876-6160

And for sewer problems, you should still call the District first at: 916-875-6730

For more information on our new building, please visit: sacsewer.com

* Staff from our North Area Corporation Yard and Sacramento Regional Wastewater Treatment Plant locations will not be moving.
