

Our Mission

The San Diego Chapter of the WaterReuse Association provides a forum for the exchange of information to promote the beneficial use of recycled water in the San Diego region.

Advanced Water Recycling Treatment Technology Workshop and Other Industry Events

WaterReuse California is presenting a workshop featuring Advance Water Recycling Treatment Technologies. This workshop brings together experts to present current developments in advanced treatment technology to produce recycled water for potable reuse and other applications. The workshop will feature discussion of membranes, advanced oxidation, ozone, BAC, and UV disinfection technologies and associated regulatory compliance implications for each. Information about the workshop is provided below.

October 18, 2013

Orange County Water District

For more information on workshop agenda and to register for the event go to <http://www.watereuse.org/conferences/california/advance-treatment>

October 25, 2013

Santa Clara Valley Water District

For more information on workshop agenda and to register for event go to <http://www.watereuse.org/conferences/california/advance-treatment2>

2014 WaterReuse California Annual Conference

March 16-18, 2013

Newport Beach Marriott Hotel & Spa, Newport Beach, CA

More information to follow

Meeting Announcements

NEXT MEETING:

October 9, 2013 9:00am-11:00am

Location: Padre Dam MWD

9300 Fanita Pkwy.

Santee, CA 92071

JANUARY MEETING:

January 2014 TBA

6th Annual Water For People Luncheon

Water For People (WFP) was founded in 1991 by the American Water Works Association (AWWA). The international, humanitarian organization focuses on improving the quality of life in developing countries by supporting the development of locally sustainable drinking water resources, sanitation facilities and health and hygiene education programs. The San Diego Committee is proud of its ongoing success in contributing to the organization, thanks to the continued support of San Diego-based individuals, businesses and public agencies that have taken initiative to get involved both locally and internationally.

Picture from 2012 Annual WFP Luncheon.

On October 23rd the San Diego Committee of Water For People (SDCWFP) will be hosting our Sixth Annual Luncheon at the Admiral Baker clubhouse. This is a beautiful clubhouse located along the Admiral Baker golf course and offers some pretty vistas and enough room for our local supporters. Our theme this year is the Current of Change, a look at the development of the Everyone Forever campaign which works in district wide planning with local municipalities and communities. Your local Water for People committee has also learned a thing or two in the last five years and expects this to be our best effort yet.

The San Diego Committee of Water For People is very pleased to welcome back member and featured speaker Gerard Dalziel. Ned Breslin, CEO of WFP commented in June 2013, that “Gerard is the Man” in the World Water Corp, the in-country working arm of WFP. He is a veteran of eight international trips on behalf of the mission and vision of Water For People, and believes “It’s Working”. Gerard’s incredible dedication to the core values of Water For People and that “water is life” is evident when he speaks of his work with the

organization. He generates a very realistic picture of what is happening on the ground in countries where we work, he never fails to capture attention and some laughs. Whenever Gerard speaks of his work with WFP he is able to instantly generate enthusiasm and a focused wake up call to end water poverty.

The all volunteer San Diego Chapter holds fundraising events several times a year. All are welcome. For the October event, registration form and more information on the local chapter contact sandiegowaterforpeople@gmail.com , or at <http://sd.tap.waterforpeople.org/documents-library>

Water For People works with schools, clinics’ and homes in developing countries to improve their quality of life by supporting the development of locally sustainable drinking water resources, sanitation facilities, and hygiene education programs. Find out more at www.waterforpeople.org

- Thurs. July 18, 2013**
- Thurs. Aug. 29, 2013**
- Thurs. Oct. 10, 2013**
- Thurs. Nov. 21, 2013**

8:00 a.m. – 12:00 p.m.
 City of San Diego
 Public Utilities Dept.
 Training Center
 5510 Kiowa Drive
 La Mesa, CA 91942

Cost:

\$60 per person
 No on-site registration
 No refunds
 Payable by check only
 Checks payable to:
 "City Treasurer"

Enrollment deadline:

Ten days prior to start of class or when class limit is reached

Send registration form and payment to:

Account Clerk
 Public Utilities Department
 5510 Kiowa Drive
 La Mesa CA 91942
 MS 43A

This half-day course is designed to provide recycled water users in the state of California with the necessary information required to become fluent in the operational practices of recycled water. The \$60 registration fee includes learning materials and a supervisor identification. Course objectives include:

- Roles and responsibilities of a Site Supervisor at a recycled water use site.
- Identifying potential and direct cross-connections and learning appropriate preventative measures.
- Practicing appropriate techniques for the safe and efficient use of recycled water.

Bi-lingual staff will be on site to address questions related to Roles and Responsibilities relevant to participants. Testing materials are also available in Spanish.

The Public Utilities Department is authorized by IACET to offer 4 CEUs for this program.
