**PLATINUM CONFERENCE SPONSORS**

**Alan Plummer Associates, Inc.**  
Ellen McDonald, Ph.D., PE, Principal  
1320 S. University Drive, Suite 300  
Fort Worth, TX 76107  
(817) 806-1746 • emcdonald@apaienv.com

Alan Plummer Associates, Inc. (APAI) has conducted business with quality and integrity for nearly 40 years. We truly believe that water is precious and have chosen to focus our practice on the protection and development of water resources for our clients and their customers. It is what we do every day. APAI is a regional firm founded with a vision to uphold environmental stewardship and technical excellence, APAI is committed to serving our clients with distinction and integrity. When it comes to water and wastewater infrastructure, we can study, plan, model, design and permit it, plus manage it during construction.

**Black & Veatch**  
David Matt Bond, Associate Vice President  
2601 N.W. Expressway, Suite 505W  
Oklahoma City, OK 73112  
(405) 607-7841 • bonddm@bv.com

Black & Veatch is a global leader in the delivery of critical water and wastewater infrastructure. Working worldwide, we help communities develop diverse water supplies through alternative solutions that overcome the barriers of technology, regulation, budget, operations and management. Whatever the driver or issue – assessing needs, overcoming scarcity and/or building resilience – we deliver integrated planning, design, construction, and management solutions crafted in collaboration with our clients from their project-specific goals for budget, schedule and performance.
Garver
Michael Graves, Vice President
1016 24th Avenue, NW
Norman, OK  73069
(405) 329-2555 • mjgraves@garverusa.com

Garver is an employee-owned multi-disciplined engineering, planning, architectural, and environmental services firm, headquartered in North Little Rock, Arkansas. With over 400 employees spread between 18 offices in 10 states, Garver offers a wide range of services with a focus on aviation, construction, facilities design, federal, power, transportation, survey, and water projects. Engineering News-Record lists Garver on its prestigious Top 500 Design Firms list, while Zweig Group has recognized Garver as the #1 best firm to work for in the multi-discipline category. Garver will celebrate a century of doing business in 2019. For more information, visit GarverUSA.com.

Tetra Tech
Gary ReVoir, Vice President
201 East Pine Street, Suite 1000
Orlando, FL  32801
(407) 839-3955 • gary.revoir@tetratech.com

Tetra Tech is a full-service, multi-disciplinary engineering consulting firm and leading provider of engineering, program management, construction management, and technical services worldwide. Whether our clients are improving existing water supply infrastructure, planning new construction to expand capacity or enhance water quality, Tetra Tech provides sustainable solutions to complex water challenges.

Carollo Engineers
Andrew Salveson, Chief Technologist Reuse
2700 Ygnacio Valley Road, Suite 300
Walnut Creek, CA  94598
(925) 932-1710 • asalveson@carollo.com

Carollo is the largest firm in the United States dedicated solely to water related engineering—it’s all we do. Since 1933, this single-minded focus has allowed us to make some unique commitments to both clients and staff. It has opened the door to the very best talent in the water industry, innovative water solutions, unparalleled client service, and above all, a collaborative and collegial working environment that makes us a great company to work with.

Haynes Equipment Company/WesTechEngineering/MEMCOR an Evoqua brand/Pinnacle Ozone Solutions
Tony Moraska, Business Development Manager
117 NW 132nd Street
Oklahoma City, OK  73114
(405) 755-1357 • info@haynes-equipment.com

Haynes Equipment Company represents the top equipment manufacturers in the municipal water and wastewater industry today. In addition to equipment sales, our integration, programming, SCADA, and telemetry offerings make us your most comprehensive partner for any project.

Xylem
Abbey Antolovich, Business Development Manager
14125 South Bridge Circle
Charlotte, NC  28273
(303) 598-7743 • abigail.antolovich@xyleminc.com

Water has always been vital. Now it is also becoming scarce. Responsible environmental stewardship requires that industries
and utilities work to improve water efficiency through reuse. Xylem can show you how. With a broad selection of treatment options, Xylem application engineers can assist you in evaluating the correct processes for any reuse requirement. For more information, call 1-855-XYL-H2O1 (855-995-4261) or visit www.xylem.com/treatment/us/applications/reuse.

**SILVER CONFERENCE SPONSORS**

**CDM Smith**  
Adam Evans, Associate  
8140 Walnut Hill Lane, Suite 1000  
Dallas, TX  75231  
(316) 660-6700 • evansad@cdmsmith.com

At the forefront of water reuse for more than three decades, CDM Smith is dedicated to finding innovative ways to plan, treat and deliver water resources for our clients, in order to address the water supply needs of our global community. CDM Smith provides lasting and integrated solutions in water, environment, transportation, energy and facilities to public and private clients. As a full-service engineering and construction firm, we deliver exceptional client service, quality results and enduring value across the entire project life cycle.

**Freese and Nichols, Inc.**  
Ray Longoria, P.E., BCEE, Treatment Practice Leader  
6303 N. Portland Avenue, Suite 100  
Oklahoma City, OK  73112  
(405) 607-7060 • marketing@freese.com

Freese and Nichols, Inc. is a professional consulting firm serving clients across the Southwest and Southeast United States. With sustainability in mind, Freese and Nichols plans, designs and manages infrastructure projects. It is the only engineering/architecture firm to receive the Malcolm Baldrige National Quality Award.

**Hazen and Sawyer**  
Ben Stanford, PhD, Director of Applied Research  
4011 Westchase Blvd., Suite 500  
Raleigh, NC  27607  
(919) 863-1027 • bstanford@hazenandsawyer.com

Since our founding in 1951, Hazen and Sawyer has focused on two things: providing safe drinking water and controlling water pollution. Our range of services encompasses “all things water” including the planning, design, and construction management of water and wastewater-related projects – from drinking water treatment, storage, and distribution to wastewater and stormwater collection, treatment, and reuse.

**TrojanUV**  
Adam Festger, Business Development Manager  
3020 Gore Road  
London, Ontario  N5V 4T7  Canada  
(519) 457-3400 • afestger@trojanuv.com

TrojanUV designs, manufactures and sells pressurized and open-channel UV disinfection systems for municipal wastewater and drinking water, and UV-oxidation systems for environmental contaminant treatment applications.

EXPANDED REUSE CAPACITY INCREASES ORANGE COUNTY’S WATER RESILIENCE.

Over a span of 3 decades, Black & Veatch has delivered dozens of projects, from feasibility studies and pilot projects to detailed design and construction management, for Orange County Water District and Orange County Sanitation District.

That work includes Black & Veatch’s improved design of the recent 30 MGD expansion to significantly increase the supply of safe, ultra-purified recycled water produced by the Groundwater Replenishment System, the world’s largest operating indirect potable reuse facility.

Helping California withstand historic drought and groundwater overdraft, this facility is a world-class example of Black & Veatch’s reliable, easy-to-operate designs for potable (indirect and direct) reuse systems.
