

WaterReuse California supports the establishment of policies and development of funding options that support as many water recycling solutions as possible; that a range of customized “mix and match” options offer each community or region the most potential for success in offsetting limited drinking water sources, including imported water.

Los Angeles Chapter Meeting Thursday, September 22, 2016 9:00 AM – Noon

You are invited to a special briefing on the release of the draft report to the California Legislature regarding the feasibility of developing statewide regulations for direct potable reuse (DPR). The release of this groundbreaking report has been highly anticipated across the nation.

Hear from the State Water Resources Control Board’s Division of Drinking Water, members of the DPR Expert Panel, the Advisory Panel, and more, on the possibilities of expanding our drinking water supply through DPR.

Location

Los Angeles County Sanitation Districts
Joint Administration Office
1955 Workman Mill Road, Whittier, CA 90601

Please RSVP by September 19 to:

Judi Miller at Judi.Miller@CH2M.com
