<td>MWD Accelerated Recycled Water Retrofit Program</td>
<td>$10M</td>
<td>$10M</td>
<td>Provides financial incentives directly to customers</td>
<td>Public and private owners to convert potable water irrigation or industrial water systems to utilize recycled water.</td>
<td>SOLICITATIONS OPEN</td>
<td>First come first serve basis starting 7/1/16 through 6/30/18 or until funds are exhausted.</td>
<td></td>
</tr>
<tr>
<td>MWD Local Resource Program</td>
<td></td>
<td></td>
<td>Provides financial incentives for the development of water recycling, groundwater recovery, and seawater desalination projects.</td>
<td>Projects can include: • Water recycling • Groundwater recovery • Seawater desalination</td>
<td>SOLICITATIONS OPEN</td>
<td>Three incentive payment options: 1. Sliding scale incentives up to $340/AF over 25 years, 2. Sliding scale incentives up to $475/AF over 15 years, or 3. Fixed incentive up to $305/AF over 25 years.</td>
<td></td>
</tr>
<tr>
<td>Water Savings Incentive Program</td>
<td></td>
<td></td>
<td>Open to all commercial, industrial, agricultural, institutional and large Landscape customers</td>
<td>Project examples: • Replacement of older, less water-efficient equipment, • Comprehensive changes to industrial processes that reduce water consumption, • Improvements to existing irrigation systems and landscaping to improve water use efficiency.</td>
<td>SOLICITATIONS OPEN</td>
<td>Payment amount is up to $0.60 per 1,000 gallons saved per year over the project live, up to a maximum of 10% Incentives are limited to 50% of eligible project costs</td>
<td></td>
</tr>
<tr>
<td>So Cal Water$mart</td>
<td></td>
<td></td>
<td>Business and residential rebates to help encourage water efficiency and conservation</td>
<td>Commercial Projects: Plumbing Fixtures Landscaping Equipment Food and HVAC Equipment Medical and Dental Equipment Residential Projects: Turf Removal Residential Devices</td>
<td>SOLICITATION OPEN</td>
<td></td>
<td></td>

| CNRA Urban Rivers (Proposition 1) | $20M | TBD | Multibenefit green infrastructure projects that increase regional & local water self-sufficiency. | Implementation projects that promote at least 2 of the following:  
• GW recharge and water reuse  
• Energy conservation  
• Runoff treatment using soils, plans, and natural processes  
• Restoration of native habitat  
• Regional and local resiliency to climate change impacts | Public comment period OPEN | June 17, 2016: Public comments due  
July 2016: Adoption of final guidelines  
October 2016: Proposals due  
July 2017: Grant awards | This program is different from the $100M allocated to SMMC and RMC for DWR Water Use Efficiency: CalConserve Revolving Fund (Proposition 1) |
| DWR Water Use Efficiency: CalConserve Revolving Fund (Proposition 1) | $10M | $10M | Sustainable funding source for urban water use efficiency projects. | Projects including but not limited to:  
• Dish/clothes washer upgrades  
• Water-saving plumbing fixtures  
• Hot-water recirculating pumps  
• Leak detection & repair  
• Landscape irrigation upgrades  
• Commercial, institutional, and industrial water efficiency | Solicitation opening soon | Spring 2016: Adoption of final guidelines  
Summer: Loan applications due | Funding will be split:  
• $5M for loans to local agencies for water efficiency upgrades  
• $5M for loans to customers for onsite projects or leak repairs |
| DWR IRWM: Implementation Grants (Proposition 1) | $418M statewide  
$98M for LA Region | TBD | Projects and programs that support IRWM. |  
• Water reuse & recycling  
• Water conservation  
• Surface storage/GW recharge  
• Conjunctive use  
• Water conveyance  
• Watershed restoration/protection  
• SW resource management  
• Desalination  
• WQ improvements | In development | TBD: Round 1 solicitation for implementation grants |  
• Public comment period ended April 8, 2016 |

</table>
| DWR IRWM: Planning Grants (Proposition 1) | $5M | $5M (expected) | Projects and programs that support IRWM. | Planning projects that accomplish:  
- Development of an IRWM plan that meets the IRWM Plan Standards  
- Compliance with recent legislation  
- Improvement of an existing IRWM plan. | Round 1 Solicitation opening soon | Proposals due September 2016: Round 1 grant awards | - Funding can be applied to new or existing IRWMPs |
| DWR IRWM: DAC Involvement (Proposition 1) | $51M statewide  
$9.8 for LA Region | $51M (expected) | Projects and programs that support IRWM. | Projects ensuring DAC involvement in IRWM planning efforts, including but not limited to eligible projects described in the Implementation Grant list. | Round 1 Solicitation opening soon | June 2016: Adoption of final RFP  
December 2016: Proposals due TBD: Round 1 grant awards | No solicitation – there will be a single proposal for each of the 12 Funding Areas, compiled by DWR and RMC staff. |
| USBOR WaterSMART Grant  
Water and Energy Efficiency Grants | $23.4M overall  
$1M Award ceiling | Unknown | USBOR provides 50/50 cost share funding to irrigation and water districts, Tribes, States and other entities with water or power delivery authority. |  
- Develop and update comprehensive drought contingency plans,  
- Implement projects that will build long-term resiliency to drought  
- Implement emergency response actions. This program supports drought resiliency projects that will build long-term resiliency to drought and reduce the need for emergency response actions. | Open to receiving applications at www.grants.gov  
BOR-DO-17-F012 | Proposals due January 18 2017 | Projects should seek to conserve and use water more efficiently, increase the use of renewable energy, protect endangered species, or facilitate water markets. |

| USBOR WaterSMART Grant Small-Scale Water Efficiency Projects | $23.4M overall | $150,000 Federal and Non-Federal cost share of each proposal | USBOR provides 50/50 cost share funding to irrigation and water districts, Tribes, States and other entities with water or power delivery authority. | Projects should be limited to on-the-ground project:  
  - Canal Lining/Piping  
  - Municipal Metering  
  - Irrigation Flow Measurement  
  - SCADA and Automation  
  - Landscape Irrigation measures  
  - High-Efficiency Indoor Appliances Fixtures | Open to receiving applications at www.grants.gov BOR-DO-17-F011 | Proposal due April 27, 2017 | Intended to support specific small-scale water efficiency projects that have been prioritized through planning efforts led by the applicant. |
| USBOR WaterSMART Grant Cooperative Watershed Management Program (CWMP) Phase II | $10M overall | Unknown | USBOR provides 50/50 cost share funding to irrigation and water districts, Tribes, States and other entities with water or power delivery authority. | Projects should be limited to on-the-ground project:  
  - Improving Stream Channel Structure and Complexity  
  - Restore or Enhance Floodplains  
  - Restoring or Enhancing Riparian Vegetation  
  - Invasive Species Prevention/Control  
  - Increasing In-stream Flows  
  - Improving habitat through Water Management  
  - Urban Runoff Mitigation and Reduction  
  - Agricultural Runoff Mitigation and Reduction  
  - Mining and Forestry Remediation  
  - Other Water Treatment Projects | Open to receiving applications at www.grants.gov | Proposal due February 2017 | Provides funding to watershed groups to develop and implement local solutions to improve water quality and the ecological resilience of rivers, streams, and riparian areas; conserve water for multiple uses; and reduce conflicts over water through collaborative conservation efforts in the management of local watersheds. |
