

Central Coast Blue is a regional

The full scale advanced treatment facility is currently in the design phase. While facility construction is anticipated to start in , Central Coast Blue Partners are currently piloting the treatment technology approaches to identify the optimal solution to achieve project goals. The communities supporting Central Coast Blue have this unique opportunity to achieve the highest levels of performance, equipment life cycle, energy, and effective or limited chemical use by testing the treatment flow and options at the Demonstration facility over the next year. This testing phase promotes future energy savings, minimizes chemicals use and ensures effective performance of the future full scale facility in the future.

WaterReuse Central Coast Chapter Meeting Thursday, May 24, 2018

12:00 M - 1:45 PM

You are invited to a Chapter Meeting of the WaterReuse California Central Coast Chapter. We will be going on a tour of the newly opened Central Coast Blue Advanced Water Purification Demonstration Facility and hearing from the City of Pismo Beach, IDE Technologies, Carollo Engineers, and Water Systems Consulting.

Location

Pismo Beach Wastewater Treatment Plant

550 Frady Lane, Pismo Beach, CA 93449

Lunch Sponsor

Meeting Format

Lunch and Chapter meeting from 11:30 AM to 12:30 PM, with lunch provided by Water Systems Consulting. The City of Pismo Beach, IDE Technologies, Carollo Engineers, and Water Systems Consulting will present on the design process. After the presentation, we will be guided on an exclusive tour of the new demonstration facility until
