Garden Etiquette

The Oregon Garden wishes to promote a safe and enjoyable environment for our guests. Please adhere to the following rules:

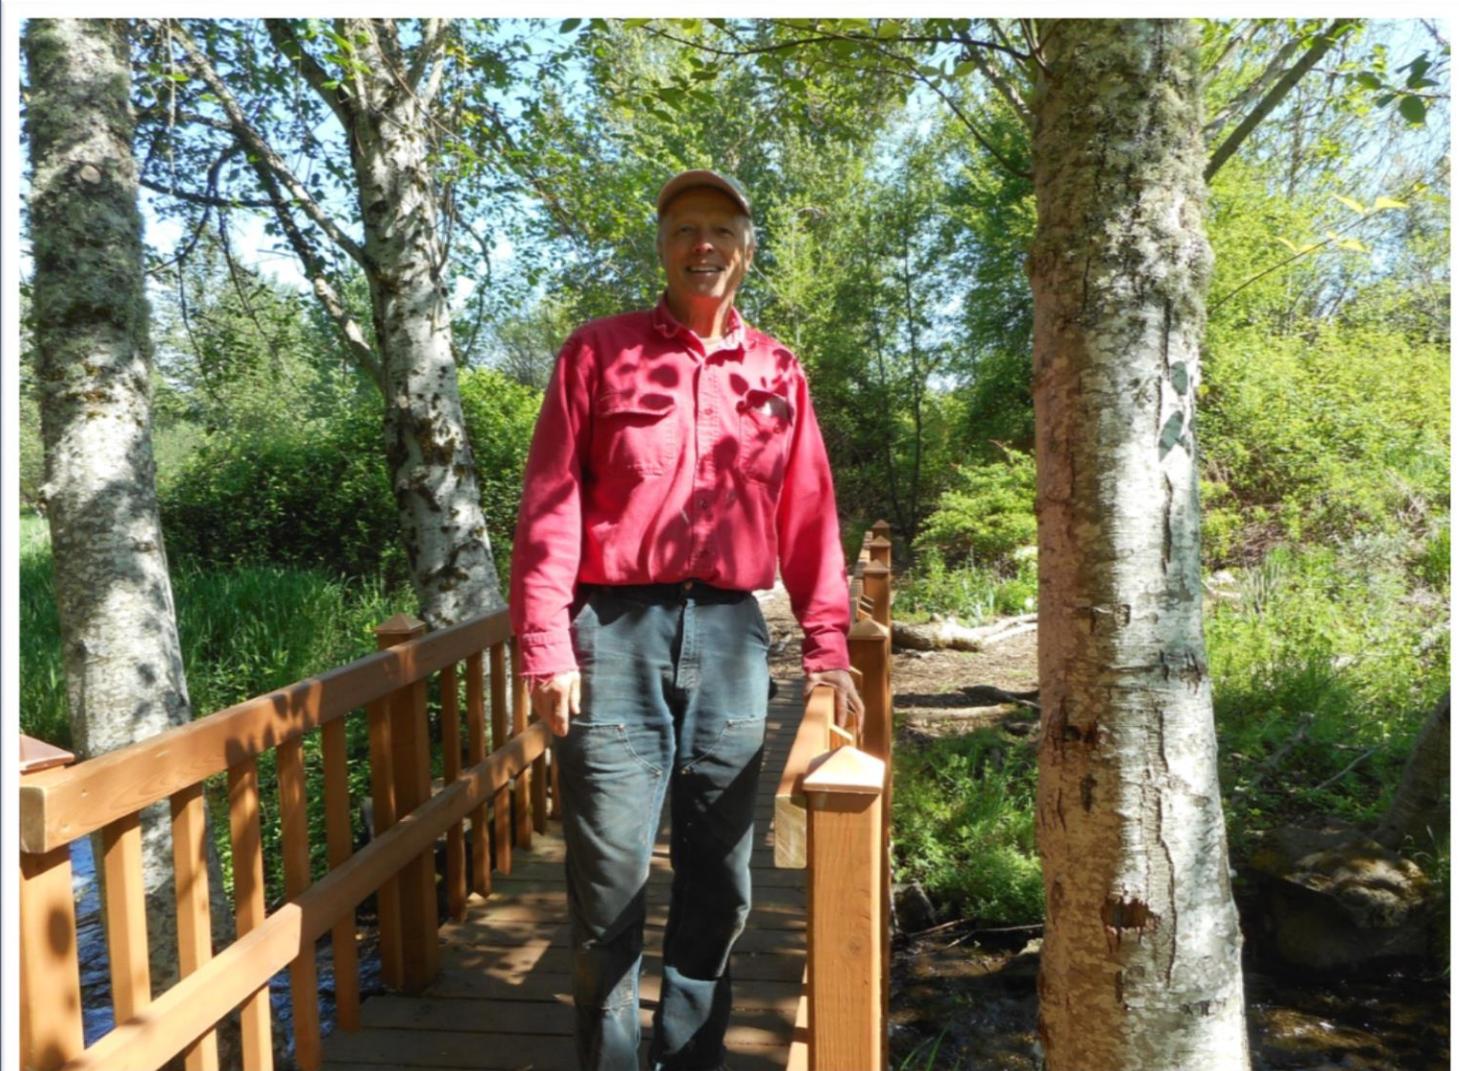

- Pets must be on leash at all times, leash not to exceed 8'. Please pick up after your pet.
- Please lock bikes in racks. Bikes are not allowed on garden paths.
- No skateboards, roller skates, firebikes, scooters and similar objects.
- No jogging or running.
- No outside alcohol or BBQ equipment. Please picnic in designated area only.
- No fireworks or weapons.
- No radios.
- The Garden is a smoke-free zone.
- Amateur photographers welcome. Professional & commercial photography by appointment only.

All visitors are required to wear shirts and shoes. For your own safety, please stay on garden paths and out of water features.

Oregon Garden Fire Safety House

Protect Your Home From Fire

OREGON GARDEN FIRE SAFETY HOUSE

The Landscaping

You are here

Zone 1: Keep it Lean, Clean, and Green

Zone 2: The Firebreak Zone

Zone 3: The First Line of Defense

The Oregon Garden Fire Safety House project is designed to help you protect your home, your property, and your technology against wildfire.

This virtual tour of the house is designed to help you understand your home, your property and your community's fire risks.

The House

When Fire Happens

The Most Vulnerable Part of the House

The Last Check: Is Your Home Protected?

It's the Little Things

Invite an expert from your local fire agency to discuss the Firewise program at a neighborhood meeting.

You can find more information at www.firewise.org

Who is at Risk?

You may be at risk. Wildfire can threaten those who live in the forested mountains, the city hills, the land-locked suburbs, the arid high country, or the rural countryside. Wildfire danger exists where homes meet nature.

We have control. Creating defensible space around your home can improve the chances that your home will survive a wildfire.

The Home Ignition Zones (Zone 1, Zone 2 and Zone 3) are the areas immediately surrounding your home that are most vulnerable to wildfire. You can take steps to reduce the risk of wildfire damage to your home and your family by understanding the effects of a fire.
