

Recently Passed Legislation (2017-18)		
Bill#/Subject	Summary	Agency/Key Dates
AB 574 (Quirk) Potable reuse	Defines potable reuse terms Requires adoption of "Raw water Augmentation" regulations (after completion of DPR research)	Water Board 2023
SB 966 (Wiener) On-site reuse	Requires adoption of statewide standards for on-site reuse	Water Board 2022 Building Standards Commission 2023
AB 1668/SB 606 (Friedman/Hertzberg) Water efficiency	Requires the development and adoption of residential outdoor, indoor water efficiency standards. Requires DWR/Water Board to consider variance for RW for high TDS. Requires agencies to adopt drought plans that can declare RW is fully reliable in a drought. (contains many other provisions)	DWR consideration of RW variance 2020 Water Board adoption: 2021
Possible Legislation for 2019		
Remove IPR-DPR references in code: WaterReuse CA		
Title 17 and 22 changes for non-potable reuse: WaterReuse CA		
Proposition 3 (If it passes) contains \$400 million for grants and loans for recycled water/potable reuse projects. Funding would go to the Water Board but there may bill implementing legislation or attempts at earmarks.		
Require recycled water "purple pipes" to be subject to leak loss detection rules (SB 555): Possibly environmental community		
Require some prohibition on ocean/bay discharges. Possibly NRDC reintroduction of this kind of bill from 2016.		
AB 2072 (Quirk- CECs) Develop a CEC program at the Water Board for recycled water and all drinking water. Failed to pass last year. Author may want to pursue.		

WaterReuse: Federal Recycled Water Update

The current state of play on FY19 appropriations with respect to federal investment programs for water recycling is noted in the following chart:

Federal Program	FY18 Funding Level	FY19 House Proposed	FY19 Senate Proposed	Enacted FY19
Title XVI	\$54,000,000	\$65,000,000	\$54,000,000	\$58,000,000
Clean Water SRF	\$1,693,887,000	\$1,543,877,000	\$1,694,000,000	N/A
Drinking Water SRF	\$1,163,233,000	\$1,013,233,000	\$1,164,000,000	N/A
WIFIA	\$63,000,000	\$70,000,000	\$63,000,000	N/Apa

- **Title XVI-WIIN -- \$225 Million Request**

WaterReuse is also seeking reauthorization and funding increase for Title XVI-WIIN, a competitive grant program within the Bureau of Reclamation's Title XVI water recycling program that Congress authorized in the 2016 Water Infrastructure Improvements for the Nation (WIIN) Act. There may be an opportunity to reauthorize the Title XVI-WIIN program as part of the reauthorization effort for the Water Resources Development Act (WRDA) Congress is currently debating. WR is currently requesting \$225 million over five years for this program.
