

Title XVI Program

Water Recycling and Reuse

Presentation Agenda

- Title XVI Program Overview
- Title XVI Process
- Program Outlook
- Other WaterSMART Program

Title XVI Program Overview

*WaterSMART consists of a set of programs which allow Reclamation to enter into **cost-shared** financial assistance agreements with eligible applicants to **plan, design, or construct** water and energy efficiency projects and other water management improvement.*

Title XVI Program Overview

- A Federal Grants Program aimed at planning, designing, and constructing water recycling and reuse projects
- Cost shared funding approach (25% or \$20 million of total project costs)

Title XVI Program Overview

- 1992 – Public Law 102-575, applied to large water recycling efforts and projects
- Amended by the Water Infrastructure Improvements for the Nation (WIIN) Act, Section 4009(c)
 1. More opportunities to project sponsors
 2. Implemented a competitive process

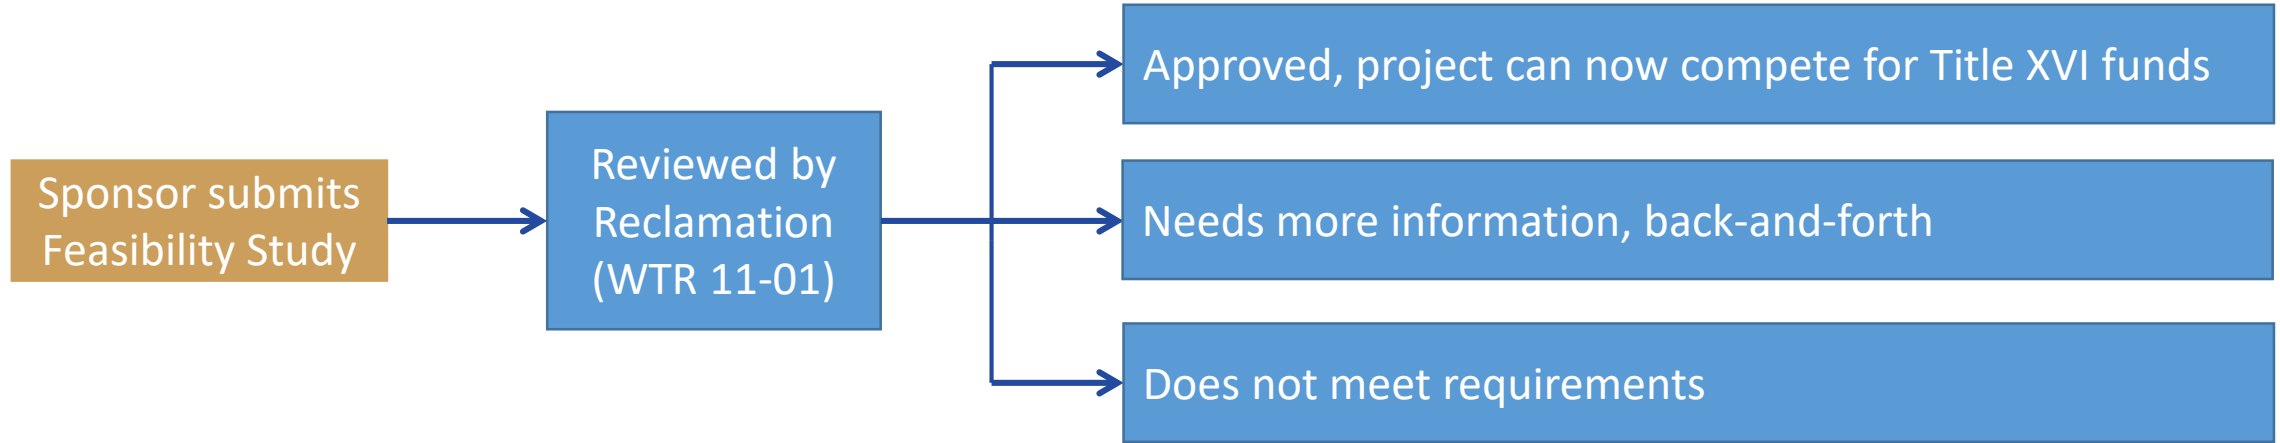

Title XVI Program Overview

Funding opportunities and partnerships created through the Title XVI Program has enabled local governments and water districts to be proactive about:

Drought Groundwater Basin Replenishment Desalination
Sea-Water Intrusion Habitat Restoration Economic Stability

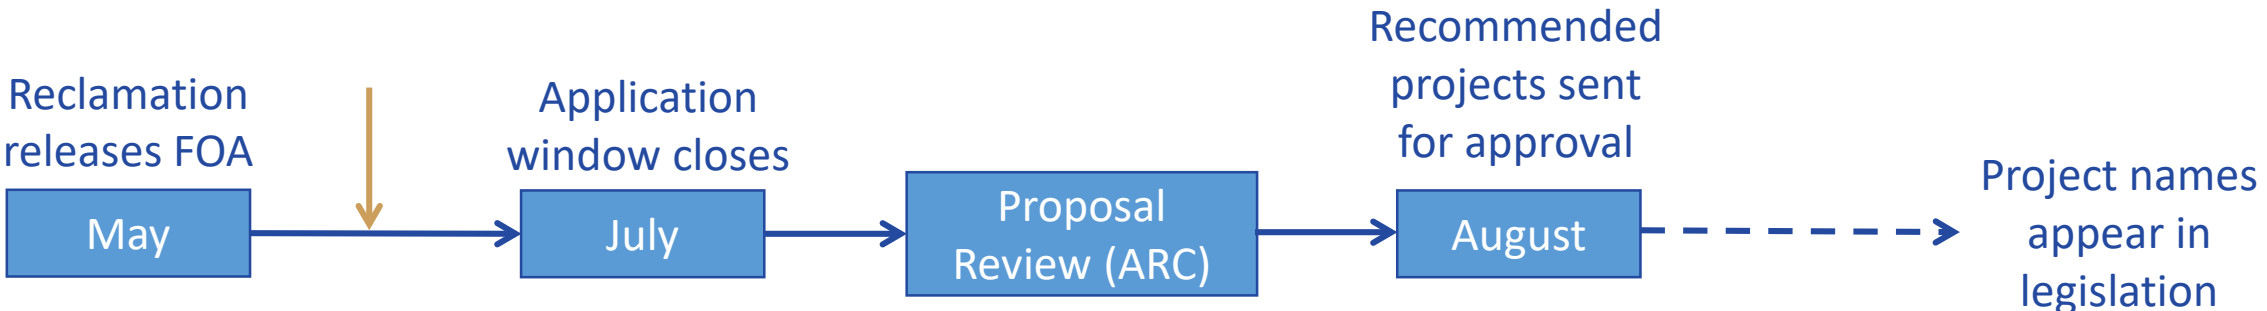

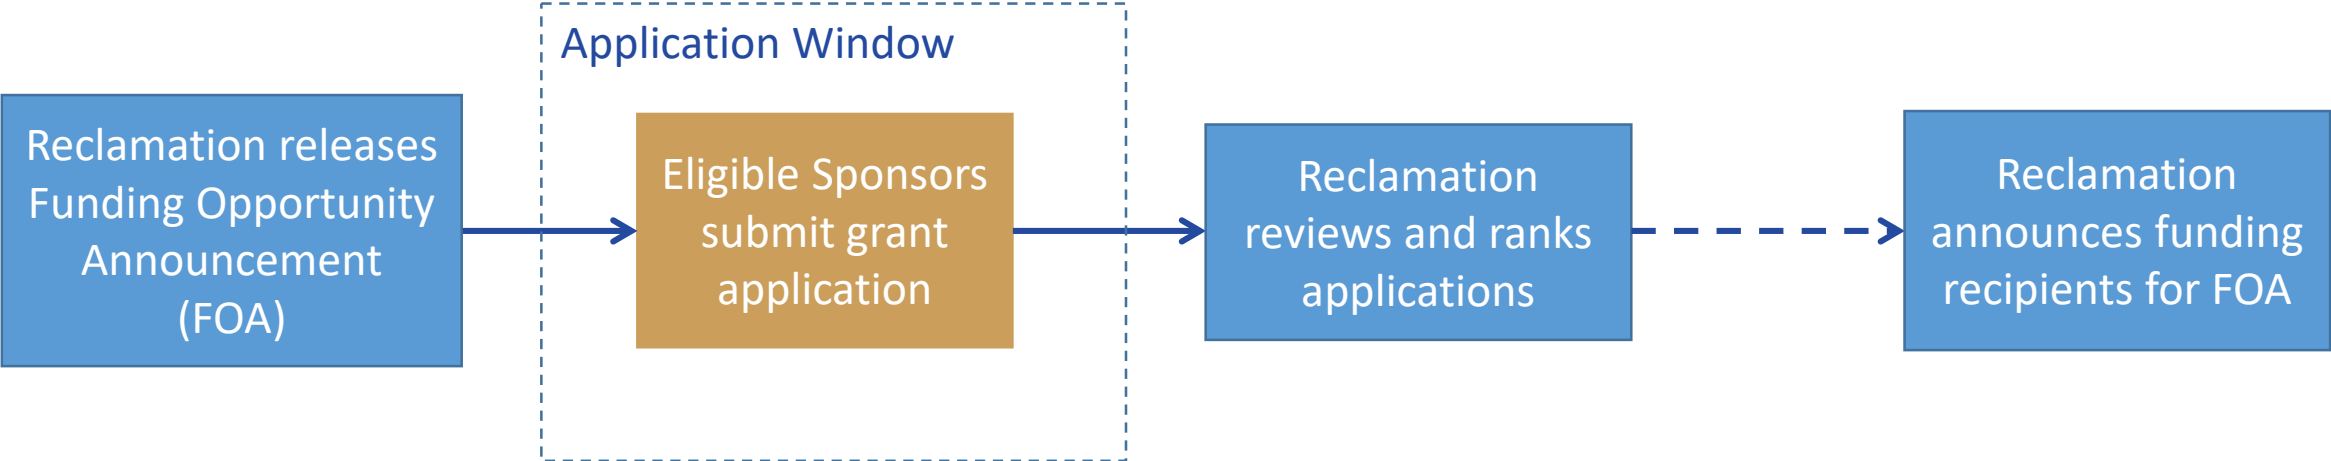

Title XVI WIIN Process

Step 1 – Feasibility Study Approval

Title XVI WIIN Process

Step 2 – Apply for Title XVI Funding

Title XVI Program Outlook

Currently awaiting project selections for Title XVI WIIN FY 2019 FOA.

Due to this, there is a possibility funding for FY 20 will be combined with FY 21 and released under the FY 21 FOA.

Other WaterSMART Programs

| Program Name | Brief Description | Cost Share |
|---------------------------------------|--|------------|
| Water and Energy Efficiency Grant | Projects conserve and use water more efficiently; increase the production of hydropower; mitigate conflict risk in areas at a high risk of future water conflict | 50/50 |
| Water Marketing Strategy Grant | Conduct planning activities to develop water marketing strategies that establish or expand water markets or water marketing activities | 50/50 |
| Small-Scale Water Efficiency Projects | Small water efficiency improvements that have been identified through previous planning efforts | 50/50 |
| Basin Studies | Evaluate water supply and demand and help ensure reliable water supplies by identifying strategies to address imbalances in water supply and demand | 50/50 |
| Applied Science Grant | Development of tools and information to support water management for multiple uses | Varies |
| Drought Program | Develop and update comprehensive drought plans, and implement projects that will build long-term resiliency to drought | 50/50 |
