

# Northern California Chapter Meeting

Paul Sciuto, President WaterReuse California

August 28, 2020

# California Stimulus Plan: 2021

---

Goal: Include funding for recycled water as part of a California economic stimulus package

Legislative proposal spending categories:

- Fire safety
- Support for Small Business
- Protect Working Families
- Investments in our Green Economy.
- Improve clean water delivery and recycling infrastructure

# Virtual Legislative Outreach

---

- Virtual Outreach to Legislators – WRCA organizing with agency teams

Messages:

Need for recycled water funding in 2021

Educate legislators about reuse issues in districts

Clean Water  
State Revolving Fund

- Sustainable Funding Capacity Reduction – \$1 billion to \$587 million
- Bring in consultant for possible program management review to identify efficiencies:
  - Staffing
  - Timing
  - Policies
  - Review other state programs
  - Feedback from California agencies
- Timing to complete for review early 2021

# WRCA-CASA CWSRF Members Survey

Goal: Assess DFA timing for review of funding applications:

- General package  
Financial package
- Technical package
- Environmental package
- Legal

Next week you will receive!

# AB 574 Expert Panel

- Raw Water Augmentation and Treated Drinking Water Augmentation regulation development
- Funding not included in Budget
- Possible agency funding

Goal: Set up expert panel in end of 2020

AB 574 Statutory deadline for DPR regs:  
2023

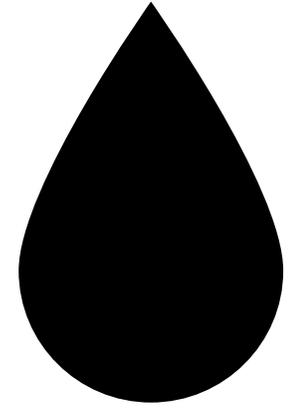

LA WaterKeeper  
Recycling Legal  
Decision

---

# WRCA NON-POTABLE REGULATIONS

- Title 22 –No date yet for non-potable update. AB 1180 required Water Board to update these regs by 2023. Budget included one staff person for update
- Handbook – Backflow protection – DDW says draft expected by the end of the year.
- Title 24 (Plumbing Code) Updated every three years. Swivel ell language pulled from latest update as Water Board had no proposed backflow protection language.
