

**WaterReuse Association Northern California Chapter Meeting
Friday, August 28, 2020 10:00 am – 12:00 pm
Agenda**

Join via Zoom, details in meeting invitation

Water Reuse Updates

9:30 am – 10:00 am	Special Tribute “Remembering Bahman Sheikh”
10:00 am – 10:15 am	Welcome/Introductions Sanjay Reddy, President, Northern California Chapter of WaterReuse
10:15 am – 10:45 am	COVID Updates in Wastewater Eileen White, Director of Wastewater, EBMUD
10:45 am – 11:15 am	DPR Research Updates Adam Olivieri, Principal / Founder EOA, Inc.
11:15 am – 11:45 am	Presentation on WaterReuse California Paul Sciuto, President, WaterReuse California
11:45 am – 12:00 pm	Closing Remarks Sanjay Reddy, President, Northern California Chapter of WaterReuse

A special thank you to our Zoom sponsor:

Speaker Biographies

Eileen White, PE

Eileen M. White is currently the Director of Wastewater for the East Bay Municipal Utility District (District) in Oakland, California, which supplies water to approximately 1.4 million people and wastewater services to about 670,000 people. Eileen has more than 20 years of engineering experience in the wastewater, water, and power industries. As the Director of Wastewater, she is responsible for leading the Wastewater Department which includes planning, organizing, and leading the engineering, operations, and maintenance of the wastewater system to ensure efficient operations that meet all regulations. She also manages the lab which provides analytical support for both wastewater and water operations.

Prior to her appointment as the Director of Wastewater, Eileen was the Manager of Water Operations and the Chief Operator for the District for 17 years where she was responsible for the District's extensive raw water transmission system, water treatment plants, and distribution system. Before her appointment as the Manager of Water Operations, she was responsible for managing the District's \$189 million Seismic Improvement Program, including its short-term and long-range planning. Prior to joining the District, she was a Design Engineer for PG&E. Eileen has a Bachelor of Science in Civil Engineering from U.C. Berkeley, is a Registered Professional Engineer in the State of California and has a Water Distribution Operator Grade 5 certificate.

Adam Olivieri, Dr. PH, PE

Adam Olivieri has over 35 years of experience leading technical and regulatory projects that involve wastewater, water recycling and reuse, groundwater, stormwater, and chemical and microbial public health risk assessments. Adam has worked in public, private, and university settings, giving him a unique perspective on water quality policy in California. He is Vice President at EOA and frequently serves as a guest lecturer and a technical advisor on state and national water quality initiatives. He acts as project manager, principal engineer, and technical advisor on a wide variety of environmental projects and has extensive experience in the area of microbial risk assessment and the application of such models to make engineering and public health policy/regulatory decisions.

Dr. Olivieri received his B.S. in Civil Engineering and his M.S. in Civil/Environmental engineering from the University of Connecticut. In addition, he received his M.P.H. and Doctor of Public Health (Dr.PH) in Environmental Health Sciences from the University of California at Berkeley. Adam is a Registered Civil Engineer in the State of California. Dr. Olivieri serves on the board of the San Francisco Estuary Institute and is a member of the Bay Area Regional Monitoring Program Steering Committee.

Paul Sciuto, PE

After coming on as Deputy General Manager of Monterey One Water in September 2014, Paul Sciuto took over as General Manager in June 2015 and has been key to strengthening and maximizing the Agency's commitment to the community. Paul arrived at a critical time when technological advancements and aging infrastructure presented new opportunities for Monterey One Water. His decisiveness was needed to modernize, increase efficiency and accountability, and promote new and innovative thinking. Already devoting more than 25 years of his career exclusively to the potable water, wastewater, and recycled water sectors, Paul is a longstanding, respected member of the industry.

Prior to arriving at Monterey One Water, Paul spent over 10 years with the South Tahoe Public Utility District as an Assistant General Manager and Engineer. He also obtained experience in the private sector as a Principal Engineer, Director of Business Development, and Director of Government Services for an engineering consulting firm.
