

# CREATING THE WATER WORKFORCE OF THE FUTURE WEBINAR SERIES

## Cultivating a Positive Workforce Culture From Apprenticeship to Career

A career in the water sector offers meaningful and challenging work that makes a difference in local communities. By building an inclusive and supportive workplace that encourages employee growth, the sector can attract and retain the qualified candidates it needs.

Please join EPA on **April 1, 2021** to hear from leaders in the water sector who are embracing the challenge of “Creating the Water Workforce of the Future.”

**Joone Lopez** from Moulton-Niguel Water District will describe her organization’s journey to build a culture that allowed MNWD to become recognized as one of the outstanding water utilities in the country.

**Tim Friday** and **Eric Dunker** from Castle Rock Water and Arapahoe Community College will then describe a utility/community college partnership that trains and places students into jobs in the water workforce.

**ATTENDANCE IS FREE – REGISTER NOW!**
