

# 2021 WaterReuse California ANNUAL CONFERENCE

**LIVE!** SEPTEMBER 19-21, 2021 • JW MARRIOTT LOS ANGELES

## Call For Presentations

WaterReuse California is accepting presentation proposals for its 2021 Annual Conference to be held September 19-21, 2021 in Los Angeles, CA.

### SPEAKER DISCOUNT

A conference registration discount will be provided for all speakers.

### IMPORTANT DATES

May 14, 2021: Presentation Proposals Due  
July 2, 2021: Presenters Notified

### INSTRUCTIONS

To be considered for a technical presentation, submit a presentation proposal by May 14, 2021. Authors will be notified by July 2, 2021 if their abstract has been selected. Due dates for presentations will vary for virtual vs in-person presentations.

### PRESENTATION FORMAT

Due to the ongoing pandemic, the 2021 WaterReuse California Conference will be a hybrid event. Some presentations will be presented virtually. We are asking each submission to note if they could participate in-person, or if they would prefer virtual only.

### ABOUT THE CONFERENCE

The conference is designed for individuals, organizations, and agencies that are associated with or interested in the design, management, operation, and use of water recycling facilities and projects in California.

### CONFERENCE ATTENDEES

Conference attendees include water recycling leaders, public agency representatives, elected officials, customers, developers, consultants, teachers, operators, environmental groups, students, manufacturer representatives and other individuals interested in engaging in the dialog about water recycling.

The conference organizing committee is aiming to emphasize the following themes when selecting and organizing abstracts:

- The role of recycled water in One Water and Sustainable Water initiatives
- Elected officials: Strategies for engagement and coordination with elected officials, agency partners, regulators, NGOs, and other influential stakeholders
- Strategies for successfully implementing recycled water projects and programs, such as project delivery options, system operations, and inter-jurisdictional partnerships
- Pathway to potable reuse—What is needed to achieve broad implementation of potable reuse in California—leadership (elected officials and executives), customers, technology, public support, funding, etc.
- Regulatory compliance from source control to operation optimization plans
- Onsite/decentralized reuse
- Emerging issues in reuse—What challenges or advancements are around the corner?

## PRESENTATION CRITERIA

- Proposals for a cohesive and interactive panel with a moderator that cover an entire track are encouraged.
- Panelists to be allowed short introduction (~5 min) with majority of time dedicated to moderator and audience Q&A.
- Presentations should have 1-2 presenters. Panels should have a minimum of 3 presenters, plus a moderator.
- Presentations should be 30 minutes, with panel presentations scheduled for 90 minutes.

## PRESENTATION SUBJECT AREAS

- Potable Reuse Success Stories
- Direct Potable Reuse
- Agency Collaboration on Reuse Projects
- Advancements in Treatment Technologies
- Operations: Challenges, Strategies, Training, and Lessons Learned
- Water Quality Issues
- Managing Recycled Water and IPR Systems with Declining Wastewater Flows
- Source Control for Potable Reuse Projects
- RO Concentrate Minimization/Disposal—Challenges and Strategies
- Expanding and Improving Non-Potable Reuse
- Implementing Onsite Reuse (Recycled Wastewater, Greywater, Etc.)
- Commercial and Industrial Applications
- Environmental Enhancement with Reuse
- Climate Change Resiliency (e.g., Drought, Sea Level Rise, Energy Efficiency)
- Sustainable Groundwater Basin Management
- Elected Officials and Agency Perspective
- Regulatory, Policy, and Compliance Issues
- Economics, Financing, and Funding
- Public Outreach, Education, and Communications
- Lessons Learned, Challenges, and Barriers to Successful Recycled Water Programs
- Data Collection, Information Management, and Decision Support Frameworks
