

Ed Archuleta Award

The Archuleta Award was created in 2013 and recognizes water reuse leaders who have made outstanding contributions in the field of water reuse within the State of Texas. Qualified applicants should be individuals who have:

- Significantly contributed to the advancement of water reuse in Texas;
- Demonstrated exceptional service and leadership in the reuse community;
- Demonstrated innovation in technology, efficiency, or management related to water reuse; and
- Demonstrated leadership in the advancement of research and education in the reuse and water resources fields.

General Criteria

1. An individual nominee shall be employed at an organization that is a member of WaterReuse Texas.
2. The nomination should be presented as a one-page summary of how the nominee meets the criteria and should include:
 - a. a concise biography of the individual nominee; and
 - b. a detailed description of the nominee's accomplishments demonstrating significant contributions in the development and implementation of water reuse practices.
3. The nomination shall include at least two letters of recommendation.

One (1) electronic copy must reach WRTX by July 12, 2023. For consideration, nominations must fulfill all requirements. Omissions must be rectified within seven (7) days of notification.

The WRT Ed Archuleta Awards Committee is comprised of past recipients of the Ed Archuleta Award.

Committee Chair David Sloan, E-mail: DWS@freese.com;

Committee Vice Chair: Ellen McDonald, E-mail: Emcdonald@plummer.com

Apply:

The nomination deadline for the award is July 12, 2023, and should be submitted to Noelle George at ngeorge@watereuse.org. Award winners and poster selections will be notified at least one month prior to the conference.
