

Reuse Impact Award

The Reuse Impact Award is a **new award for 2023** that recognizes individuals, projects, facilities, or organizations that have made significant contributions to increase water reuse in Texas. Award recipients exhibit leadership in advancing education, advocacy, technology, and/or management of water resources, showcasing innovative approaches that others can follow to build resilient communities through water recycling. Awardees in this category will include exemplary water reuse projects, systems, and/or facilities that demonstrate the value of water reuse to the community they serve or that have advanced water reuse practices in Texas by developing novel approaches to reuse.

This can be awarded to a project, facility, organization, etc. that has had a significant impact on reuse in Texas over the last three years. (2020-2023)

General Criteria

1. If nominating a project or facility, it must be completed or operational at the time of the nomination.
2. The nomination should be presented as a one-page summary of how the nominee meets the criteria and should include:
 - a. nominee contact information and nominator contact information
 - b. detailed description of why you are nominating this entity for the reuse impact award, demonstrating significant contributions in water reuse
3. Supplemental materials may be submitted but are not required. Such materials may include:
 - a. Up to two letters of recommendation,
 - b. Up to five pages of pictures, drawings, or similar illustrative material, and/or
 - c. Up to two minutes of video.

Apply:

The nomination deadline for the award is July 12, 2023, and should be submitted to Noelle George at ngeorge@watereuse.org. Award winners and poster selections will be notified at least one month prior to the conference.
