

DEMYSTIFYING POTABLE REUSE WITH A DIY DEMO TABLE!

CALLING ALL WATER REUSE COMMUNICATORS

Want to effectively engage the public and explain the fascinating process of potable reuse water treatment? This session is for YOU!

Join us for a fun and informative table-top water treatment demonstration. Learn how to create an engaging, cost-effective demo using simple supplies.

We'll cover:

- Key treatment stages and how to represent them visually
- Building your demo station with easy-to-find materials (shopping list included!)
- Crafting a clear script to explain each stage

Leave ready to create your own portable demo table and educate your community about the future of sustainable water management. Have a cool hands-on idea? Bring it and share with us!

**Tuesday, September 17
8-9am**

**Salons VII-VIII on 2nd flr
Hyatt Regency**

**Guest Speaker:
Robert Charpentier**

*Communications Specialist with
Truckee Meadows Water Authority
(A partner agency of OneWater
Nevada's Advanced Purified Water
Facility in Reno)*
