

INDUSTRIAL WATER SOLUTIONS

JUNE 23-25 | COLUMBUS, OH

BUILD RESILIENCE THROUGH
TECHNOLOGY, MARKETS,
& INNOVATION

Presented by Water Environment Federation & WaterReuse Association

Industrial Water Solutions June 23-25, 2025 | Columbus, Ohio

Water is the fuel of the new economy, and the circular water economy is key to unlocking its full potential. The Industrial Water Solutions conference will unite industry and utility leaders to build sustainable water management programs that recover resources, minimize waste, and turn waste streams into value streams. This essential event will feature strategies that boost resilience and ensure reliable water for both industry and the communities they serve.

Monday, June 23

1:00PM – 4:30PM **Pre-Conference Workshop: Breaking Barriers for Industrial Water Reuse** **SOLD OUT**
Delaware AB, 2nd Floor

Participants will explore innovative solutions for industrial water challenges in the Breaking Barriers for Industrial Water Reuse workshop. This interactive session features case studies from multiple industries, offering insights into overcoming barriers and implementing effective water reuse strategies. Participants will learn from experts in the field regarding industrial reuse regulations and applicable treatment technologies, then engage in case study exercises where they will collaborate on solutions.

Kjrsten Bobb, Stanley Consultants (Facilitator)

Brian Arntsen, Veolia

Paul Bowen, Beverage Industry Environmental Roundtable (BIER)

Matt Griffin, General Motors

Bill Bratt, Woodard & Curran

Frank Johns, Stanley Consultants

1:00PM – 4:00PM **City of Columbus Compost Facility Tour**

Visit the City of Columbus' compost facility which has beneficially reused 100% of the city's biosolids, with no incineration and no landfill, for nearly a decade. The tour includes a presentation from Ohio State University on research related to combining biosolids with water residuals (alum specific), which adds carbon to the soil while aiding in the sequestering of phosphorus.

1:30PM – 4:30PM **New Albany Business Park Tour – Bus 1** **SOLD OUT**

2:30PM – 5:00PM **New Albany Business Park Tour – Bus 2** **SOLD OUT**

The central Ohio city of New Albany has become a focal point of the state's data center boom, with over 100 facilities in the region powering everything from tech support to data storage. Encompassing 9,000 acres, The New Albany International Business Park is one of the largest strategically planned business parks in the country and one of the fastest growing in the Midwest. It has attracted over \$6 billion in private investment including hyperscale data centers, biotech industries, manufacturing, and Intel.

INDUSTRIAL WATER SOLUTIONS

JUNE 23-25 | COLUMBUS, OH

BUILD RESILIENCE THROUGH
TECHNOLOGY, MARKETS,
& INNOVATION

Presented by Water Environment Federation & WaterReuse Association

5:00PM – 6:30PM

Welcome Reception

Regency Foyer, 3rd Floor

Tuesday, June 24

7:30AM – 8:30AM

Networking Breakfast

Regency Foyer, 3rd Floor

8:30AM – 10:00AM

Opening Plenary

Regency Ballroom, 3rd Floor

Welcome Speaker: Elon Simms, Chief of Staff to Mayor of Columbus, OH

Panel 1: Economic Development Setting the Stage

This panel will explore how industrial water strategy drives economic development contributing to water security, enhancing business competitiveness, and supporting community prosperity. Experts from industry, government, and utilities will share insights on ways in which circular water initiatives strengthen local and regional economies.

John Kmiec, *Tucson Water* (Facilitator)

Shari Whalen, *TRI-GID*

Anh Quach Crandall, *Google*

John Sheets, *CDM Smith*

Fawn Bergen, *Intel*

10:00AM – 10:30AM

Networking Break

Regency Foyer, 3rd Floor

10:30AM – 12:00PM

Concurrent Sessions (2 Tracks)

Session 1A: Intersectoral Partnerships

Delaware AB, 2nd Floor

Explore how cross-sectoral collaboration is advancing sustainable industrial water solutions through the circular water economy. This session showcases partnerships that drive water reuse, the recovery of valuable resources, and water as a renewable asset supporting community resilience and economic prosperity.

Rick Warner, *Jacobs* (Facilitator)

Rachel Havrelock, *Freshwater Lab Chicago*

John Newsome, *City of Columbus*

TECHNOLOGY, MARKETS,
& INNOVATION

Presented by Water Environment Federation & WaterReuse Association

Tim Brown, *Newton County Water & Sewerage*

Rob McCandless, *Stantec*

Session 1B: High Tech & Data Center Cooling

Delaware CD, 2nd Floor

As the AI revolution drives demand for high-performance computing, water and energy use in data centers is surging. This session explores innovative cooling strategies through the lens of the circular water economy, focusing on water reuse mechanism for establishing sustainable digital infrastructure.

Ufuk Erdal, *Black & Veatch* (Facilitator)

Michael Skovgaard, *Grundfos*

Tala Tala, *Los Alamos National Lab*

Micah Vieux, *Loudoun Water*

Jared Burdick, *Sundt*

Toni Bechtel, *DuPont*

12:00PM – 1:00PM

Networking Lunch

Regency Foyer, 3rd Floor

1:00PM – 2:30PM

Plenary & Keynote

Regency Ballroom, 3rd Floor

Keynote Speaker: Jeffrey Berger, *Dalberg*

Panel 2: Innovations in Industrial Water Treatment

Explore cutting-edge advancements in industrial water treatment—from biological processes and advanced filtration to data-driven optimization and resource recovery—within the framework of the circular water economy. Experts from research, technology, and utilities will discuss how these innovations are turning waste into value and enabling more sustainable, resilient water systems.

Heather Jennings, *Huma Environmental*

Ryan James, *Battelle*

Peter Fiske, *NAWI*

Matt Griffin, *General Motors*

Saurabh Singh, *BlueTech Research*

2:30PM – 3:00PM

Networking Break

Regency Foyer, 3rd Floor

INDUSTRIAL WATER SOLUTIONS

BUILD RESILIENCE THROUGH
TECHNOLOGY, MARKETS,
& INNOVATION

Presented by Water Environment Federation & WaterReuse Association

3:00PM – 4:30PM

Concurrent Sessions (2 Tracks)

Session 2A: Food & Beverage

Delaware AB, 2nd Floor

This session highlights innovative strategies, technologies, and partnerships driving sustainable water management in the food and beverage industry. Speakers will explore how the sector is implementing industrial water solutions while maintaining operational efficiency.

Colin Cummings, *Grundfos* (Facilitator)

John Crisman, *Moleaer*

Nick Butson, *Geosyntec*

Margaret Wild, *Kennedy Jenks*

Daniel Mundy, *Freshpet*

Session 2B: Design Build

Delaware CD, 2nd Floor

This session focuses on a broad spectrum of design build approaches for industrial project delivery. Group discussion will focus on addressing project delivery challenges to co-create elements of an industrial project delivery process of the future.

Barb Martin, *WCDA* (Facilitator)

Ernie Maschner, *Victaulic*

Bob Salvatelli, *H2O Innovation*

Tiffany Shaw, *Haskell*

Ankur Patel, *The Walsh Group*

4:30PM – 6:30PM

Cocktails and Conversations

Regency Ballroom, 3rd Floor

Participants will network and learn in a small group setting while rotating between focused topical conversations.

Wednesday, June 25

INDUSTRIAL WATER SOLUTIONS

JUNE 23-25 | COLUMBUS, OH

BUILD RESILIENCE THROUGH
TECHNOLOGY, MARKETS,
& INNOVATION

Presented by Water Environment Federation & WaterReuse Association

7:30AM – 8:30AM

Networking Breakfast

Regency Foyer, 3rd Floor

8:30AM – 10:00AM

Plenary & Keynote

Regency Ballroom, 3rd Floor

Keynote Speaker: Andrew Sawyers, U.S. EPA

Panel 3: Navigating a Changing Landscape

This panel will explore the latest policy developments, regulatory challenges, and strategies for ensuring reliable and cost-effective water solutions. Experts from industry, utilities, and the public sector will share insights on navigating government affairs, managing risk, and leveraging innovation to support industrial growth.

Thomas Iseman, *Veolia* (Facilitator)

Erica Spitzig, *Taft*

Sharon Waller, *MWRD Greater Chicago*

Diana Rodriguez, *Amazon Web Services*

Jon Freedman, *Veralto*

10:00AM – 10:30AM

Networking Break

Regency Foyer, 3rd Floor

10:30AM – 12:00PM

Concurrent Sessions (2 Tracks)

Session 3A: Financing

Delaware AB, 2nd Floor

In this panel, speakers will discuss the financial tools and funding mechanisms that currently exist for industrial water solutions projects. Various perspectives will be provided from federal representatives to consultants to the industries that implement these projects.

Rob Simm, *Stantec* (Facilitator)

Noshir Irani, *Kiewit*

Jorianne Jernberg, *U.S. EPA*

Matthew Silver, *Cambrian*

Pradipta Parhi, *J.P.Morgan*

Cindy Jia, *ING Financial Services*

Session 3B: Brine and Produced Water Management, Energy Use, & Carbon Footprints

Delaware CD, 2nd Floor

This TEDx-style session unites trailblazers from the water-energy nexus, showcasing bold ideas from pioneering startups, global engineering firms, and cutting-edge research. The focus will include innovations in the circular water economy, exploring sustainable solutions that link water, energy, and carbon management.

12:00PM – 1:30PM

Industry Themed Networking Lunch

Regency Foyer, 3rd Floor

Join a table designated for individuals interested in a particular industrial sector from food & beverage to energy and more.

1:30PM – 3:00PM

Closing Plenary & Keynote

Regency Ballroom, 3rd Floor

Keynote Speaker: Mark Cassalia, *CEO Water Mandate*

Panel 4: Looking Forward

This panel will explore the future of industrial water use, highlighting emerging trends, innovative strategies, and the growing role of collaboration in securing sustainable water resources. Experts from diverse sectors will discuss the intersection of technology, policy, and corporate leadership in shaping the next generation of industrial water solutions.

Greta Zornes, *CDM Smith* (Facilitator)
